

A PAMERINDO INDONESIA TRADE EVENT

PLASTICS & RUBBER INDONESIA

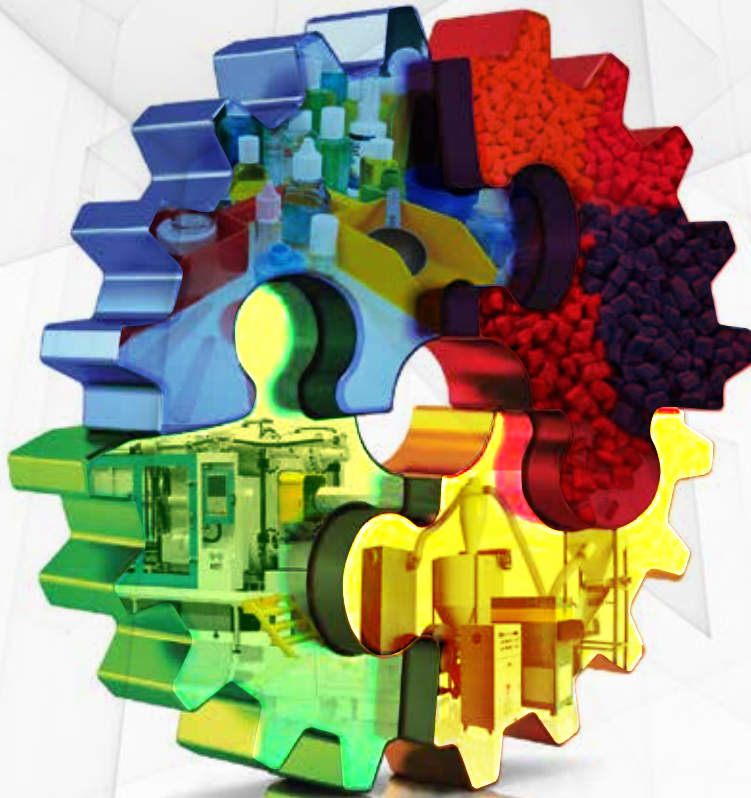

20 - 23 November 2019
Jakarta International Expo, Kemayoran
Indonesia

Incorporating:

Featuring:

EXHIBITION REPORT 2019

Organised by:

The 32nd International Plastics and Rubber Machinery, Processing and Materials Exhibition

www.plasticsandrubberindonesia.com

4 Days Overview

Plastics & Rubber Indonesia is now the only dedicated plastics and rubber event in Indonesia with the sole focus of serving the needs of those industries.

In its 32nd edition Plastics & Rubber Indonesia is well known and respected among industry professionals attracting key players and leaders in the plastics industry.

PLASTICS AND RUBBER INDONESIA 2019 SERIES OF EXHIBITIONS

The 32nd International Plastics & Rubber Machinery, Processing & Materials Exhibition

Incorporating:

Featuring:

Theme:

The Future of Plastics

Opening hours:

Wednesday – Friday: 10.00 – 18.00 | Saturday: 10.00 – 17.00

Onsite activities:

- Seminar
- Business Match Making: Connecting Plastics, Rubber, Mould, and Die Technology Industries
- Buyers Engagement
- Live Demo
- Tech-Talk Corner: The Future of Plastic

557
exhibiting companies
from 22 countries

Exhibiting countries/regions

(Austria, China, France, Germany, Hongkong, India, Indonesia, Italy, Japan, Korea, Malaysia, Netherlands, NewZealand, Singapore, Sweden, Switzerland, Taiwan, Thailand, Turkey, UK, USA, and Vietnam).

Worldwide Representation in Plastics & Rubber Indonesia 2019

Exhibitor Testimonial

Currently, we are focusing on the partnership with various industry sectors for the supply chain and increasing the factory capacity by adding the supply of polyethylene raw material up to 736,000 tons / year. Through Plastics & Rubber Indonesia, we're expecting to open the business opportunities with various parties in a wide array of industries, since petrochemical is the basic industry for automotive, electronics, aircraft, construction, paint and many more sectors.

Edi Riva'i

General Manager of Polymer Technical Service and Product Development
PT Chandra Asri Petrochemical, Tbk

We have successfully sold machines onsite during this show, and this gives us assurance that Indonesia indeed is a market to penetrate in!

Tung Yu Hydraulic Machinery Co., Ltd.

近年參加此展明顯感受到大會對於HALL BC拓增展區的用心，有適度的國際廠商攤位規劃以及人潮引導

Hall B and Hall C have grown drastically over the recent years on the Molding and Injection sectors. We have also seen a lot of International Industry Players which is a good influence for both exhibitors and visitors.

Jing Day Machinery Industrial Co., Ltd

Plastics & Rubber Indonesia is a trade fair that we will attend for the first time. Knowing that it is difficult to sell products to a region that can be considered as the hub of PET plastic industry on a sectoral basis, but we already have a customer whom we regularly supply products to. Besides, we aim to find new companies that we can contact, and we want to expand in this territory.

Osman Erdogan

Regional Sales Director
Koksan Pet Packaging

After two years of absence, we decide to exhibit again at Plastics & Rubber Indonesia 2019. It was very interesting to see the growth of this exhibition. We gained a lot of new contacts, especially beside JABODETABEK area and we expect our presence at this edition will bring us positive promotion.

Lukas Musial

Regional Sales Director Southeast Asia
K D Feddersen

Although the Far East is a huge market for thermoforming machinery manufacturers, the trade relying on imports and exports mainly takes place with its neighboring countries. However, competitive and large manufacturers have invested in higher-tech machinery, resulting in an increased rate of investments made in this respect. On the other hand, there is a demand from end-users for eco-friendly and more boutique products. It can be considered a time of opportunity for manufacturers who operate on a flexible basis and keep their operating costs low. As Inpak, we aim to improve our existing relations and make new contacts with the manufacturers of local and neighboring countries at the Plastics and Rubber exhibition that will take place in Indonesia.

Mustafa Eren

Marketing and Business Development Director
Inpak Machinery

This show has definitely grown in terms of scale and potential for us, for we have been a loyal participant for many years already. As compared to its neighbor countries, we feel that Indonesians are very receptive and adaptive with foreigners now, and ready to invest in machines. This show is remarkably the best and most successful Plastics show in Indonesia.

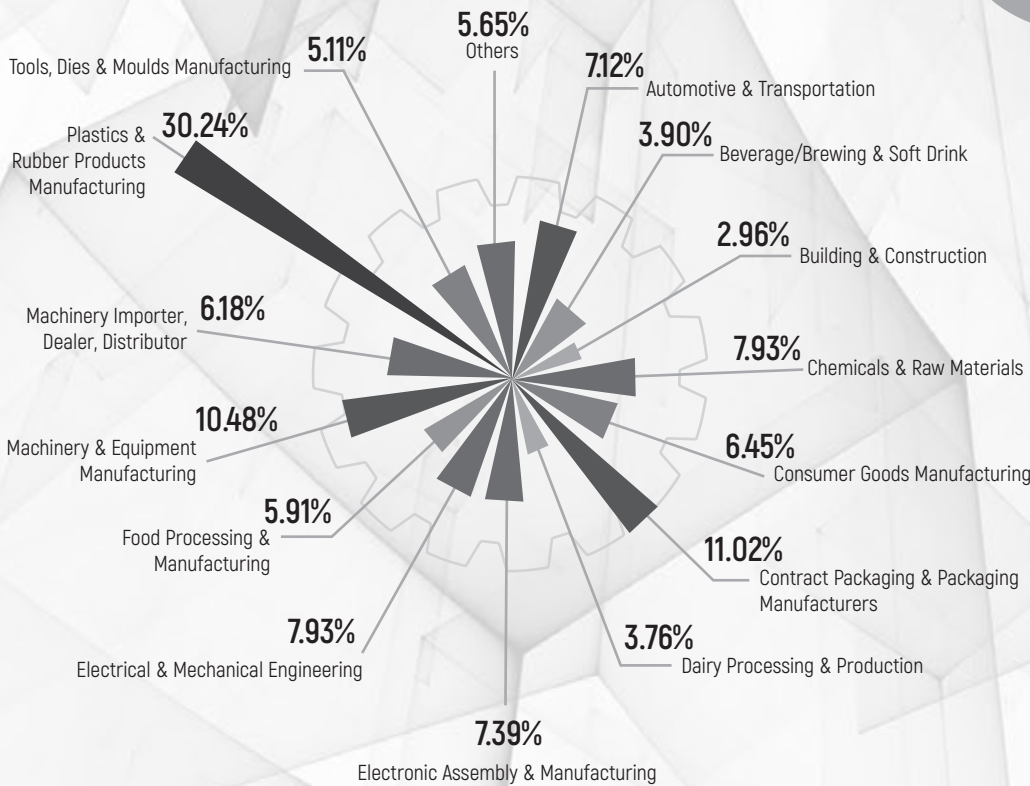

Bruce Chen, Sales Manager

Ningbo Hwamda Machinery Co. Ltd

Visitor Overview

Main Company Activity

- 83%  Find new suppliers
- 85%  Source new products
- 87%  collect market information
- 95%  Quality of exhibitors

Visitor Testimonials

” This exhibition is very useful for us who works in this industry in Indonesia. We can look for machine product and the demo live which we haven't see it.

Mr. Stevanus Budi Rahardjo

Technical Assistant Manager - Plastop Indonesia Manufacturing

” I represent the City of Pangkal Pinang to look for plastic processing machines or the similar equipment and I found it at the Plastics & Rubber Indonesia exhibition. Because so far Pangkal Pinang City is still processing its plastic waste in a conventional manner. With the waste treatment machine that I found at this exhibition, I hope that we can process waste to be used as raw material that can provide benefits to the community and increase PAD (Local Main Economy) of Pangkal Pinang City.

Rosdiansyah Rasyid

The Vice Chairman of the City of Pangkal Pinang Regional People's Representative Council

” I am a technical consultant on the building, repair or refurbishment of ships. I consult end-users or entrepreneurs on new purchases, especially on pipes made from plastic materials for mass production. After walking around 2-3 hours at the show, I see new things that I can recommend to producers or entrepreneurs who will be interested but they might not have the chance to come to this exhibition.

Yoseb

Freelance Consultant
